marcus.willcox@live.co.uk

## PERSONAL BIOGRAPHY

I am a very enthusiastic individual seeking a role related with gaming or technology whether it be in a tech company or a gaming studio. I have acquired a vast knowledge of the field of business through my two year study in sixth form and have been fascinated by the complexities of business and how to overcome such problems as external forces of change. Thus, I wish to pursue a career in business; specifically finance which would allow me to venture into these concepts. My combination of a robust drive for business and mathematical brain give me the edge over normal applicants. For the time being I'd very much enjoy a part time job where I can earn a bit of pocket money so to speak.

## HOBBIES

Personally, I have a passion for technology and feel as if I am especially tech-savvy. During my free time, I enjoy watching educational Youtube videos allowing me to extend my knowledge on certain topics like politics for example. I also enjoy social networking sites and feel as I would be truly exceptional entering a firm's marketing team due to this. My typing WPM is approximately 90 (which is well above the average) and I can type above this under pressure.

## SKILLS

- 10+ Years of Typing & Gaming Experience
- I can perform well under pressure
- Good teamwork & good problem-solving skills
- Organised
- Excellent with time management, punctual
- Motivated
- Fast Learner
- Empathetic Listener

---

## EXPERIENCE

### **Tesco Extra, Poole** - *Customer Assistant in General Merchandising Department*

- Moving cages to and from warehouses. Unpacking boxes and stocking shelves with deliveries. Helping customers with their queries (Retail work).

### **Lush Ltd, Poole** - *Assistant Engineer*

- During my time at Lush I visited each department of their organisation and was hands on with the creation of many popular products of theirs. While I was in this role I had to complete tasks such as pouring hot moulds, filling moulds with different solids and packaging products to be sent in the post to customers. (Factory work)

### **Aniwell Veterinary Clinic** - *Assistant Veterinary Nurse*

- The job entailed tasks such as carrying, feeding and caring for animals that were under their care & listening to private consultations. Furthermore, I was tasked with the cleaning and washing of dog/cat bedding.

### **The Bourne Academy (Secondary Academy)** - *Teaching Assistant*

- In this role I was a TA, supporting the teacher in any means possible whether it be handing out resources to students, helping specific students in their studies or even doing demonstrative presentations.
